

A message to parents and families

You may be aware that RMBC are currently carrying out a large scheme of re-roofing work in the Munsborough area.

Scaffolding has been put -up against a number of buildings.

It has recently come to our attention that some young people are using the scaffolding as a climbing frame. Both South Yorkshire Police and Rotherham Council are concerned about incidents such as these.

Please make your children aware of the danger involved in climbing on scaffolding. During the next few weeks and over the summer holidays the scaffolding will be in place.

Please make a point of letting your children know how dangerous climbing can be, make sure your kids keep away, remember, it is a work place, items, tools or pieces of debris may fall from high up so it is unsafe hanging around at the bottom or underneath the scaffolding.

Let's all have a great summer and return to school for the new term unharmed.
